

Thunderbass and Thunderbolt with 3 pots passive pickups

Thunderbass, and Thunderbolt are registered trademarks of M.V. Pedulla Guitars, Inc.

Thunderbass (T1) and Thunderbolt (T2) control layouts differ but the wiring of the components is identical. This diagram is arranged for clarity and does not represent the layout of either of the harnesses.

 Ground connection – Connect Jack shield to preinstalled bare wire between pots (not shown in this diagram). Connect to cavity shield if available. Also ensure bridge is connected to ground.

Thunderbass and Thunderbolt basses require a barrel jack which must be purchased separately.
