

Thunderbass and Thunderbolt with 4 pots and active pickups

Thunderbass (T3) and Thunderbolt (T4) control layouts differ but the wiring of the components is identical. This diagram is arranged for clarity and does not represent the layout of either of the harnesses.

Thunderbass, and Thunderbolt are registered trademarks of M.V. Pedulla Guitars, Inc.

Thunderbass and Thunderbolt basses require a barrel jack which must be purchased separately.

Ground connection – Connect Jack shield to preinstalled bare wire between pots (not shown in this diagram). Connect to cavity shield if available. Also ensure bridge is connected to ground.

BC4KE and BC5KE active pickups are discontinued and unavailable. New Pickups must be ordered with new electronics and visa versa.
