

## Mute Compartment Pickup for Rickenbacker<sup>®</sup> Basses

This pickup is designed to fit inside the bridge casting of Rickenbacker<sup>®</sup> 4000, 4001, and 4080 basses. It will add treble boost and definition to the tone of these instruments.

The pickup is fastened to the bridge casting with screws and springs that hold the mute in place.

A very small amount of wood may have to be trimmed from the bridge cavity to insure a proper fit.

The following wiring is recommended:
