# GUITAR PICKUPS

J5 jazz guitar shape

standard Strat shape

standard humbucker shape

## Humbuckers

- V92C-N very bright and clear neck HumBucker
- V92C-B warmer HB for neck or bright bridge
- V94-D deeper HB for bridge - near PAF output
- E92C-B Active V92C-B / coil cut / high output + boost
- 1C unequal coil HB / clear warmth
- 1CTA equal coil / unequal response / high clarity
- TXE Active only for single HB jazz guitar / UltraLowNoise
- V88-C bright, glassy PAF level HB for neck
- V88-D deep tone bridge match to V88-C
- 1D-01 neck side of "Grunge Pair" - very good mids
- 1D-03 bridge side of "Grunge Pair" - deep, raw power

## ZBS Humbuckers

- ZBS-40 very bright - 8.2 K-ohm
- ZBS-50 bright and sweet - 11 K-ohm
- ZBS-60 bright with hot mids - 14 K-ohm
- ZBS-70 hot and nasty - 16 K-ohm
- ZBS-75 deeper, hotter - 18 K-ohm
- ZBS-80 deepest, hottest - 20 K-ohm

## Strat\* size

- V88S - N or S very clear, glassy, near Vintage tone single coil
- 3XQ - N or S very clear, smooth, near Vintage tone sng. coil
- 3X - N or S clear, smooth, full range single coil
- 3XR - N or S deeper tone, high power, bridge pos. sng. coil
- 3S - N or S tapped single coil for deep/bright choice
- 3D-01 N or S single coil of 1D-01 "Grunge" neck humbucker

## ZBSC Single coils

- ZBSC-50 clearer than Strat\* - 4.8 K-ohm
- ZBSC-60 Strat\* level but hotter - 6.1 K-ohm
- ZBSC-70 deeper, hotter - 7.2 K-ohm

## Jazz Guitar (Johnny Smith type)

- 5J smooth, clear dual coil - end of fingerboard bracket
- 5JNB smooth, clear dual coil without mounting bracket

## Large Humbucker for 7 string guitar

- 492C-B 7 string version of V92C-B
- 4CTA 7 string version of 1C-TA
- 494-D 7 string version of V92-D
- 4D-01 7 string version of 1D-01
- 4D-01 7 string version of 1D-03
- E494D Active - 7 string version of E92C-B

Soapbar (P90) shape

- SBC Soapbar shape version of 1C
- SB88-C Soapbar shape version of V88C
- SB88-D Soapbar shape version of V88-D
- SB88K-N Soapbar shape bright version of V88-C
- SB88K-B Soapbar shape bright version of V88-D

Active Strat Systems (prewired)

- System 111 equal stacked coils / vint. tone / high output + boost
- System 111B unequal stack coils / vint. tone / high output + boost
- System 112 SSH / coil cut // vint. tone / high output + boost

Acoustic Guitar (soundhole mounting)

- 3A soundhole mount single coil for steel string guitar
- 3AV soundhole mount stacked coil for steel string guitar
- E3AV soundhole mount active pickup for steel string guitar

# New for 2001!

For the last 2 years it has been our pleasure to collaborate with Ron Armstrong on guitar pickup design. Ron was the man behind Star's Guitars in the late 70's. The Warp series preamps, Stardrive EQ, Slot-Tops pickups covers, Brass Mass and other bridges, and Excalibur guitars and basses stand to his credit. In addition, he is one hell of a nice guy. Our testing, R&D and advanced technology have combined to yield tone and power beyond my wildest expectations. We are proud to bring to you these new designs in 6 variations in a standard humbucking format and 3 variations in single coil format. In our vast combined experience, the expanded tonal range of these pickups exceeds all previous design concepts. We hope you enjoy them as much as we do.

Please check our website for added information, as well as video and sound samples.

Bill Bartolini

mini-humbucker shape

7 string humbucker shape

For Jazz Basses

9SU - 4 string single coil

9J - 4 string split coil deeper tone  
9K - 4 string split coil brighter tone

9W4 - 4 string quad coil - full range  
9W4J - 4 string quad coil - fretless

MMC - 4 string dual coil - deep tone

MMX - 4 string dual coil - bright tone

For Music Man Bases

72MM5E - 72mm 5 string tri-coil - deep tone

72MM5EK - 72mm 5 string tri-coil - bright tone

MME - 4 string triple coil - deep tone

MME - 4 string triple coil - deep tone

59J - 5 string split coil deeper tone  
59K - 5 string split coil brighter tone

9W574 - 5 string multicoil - full range  
9W5J74 - 5 string multicoil - fretless

xx58S - 5 string deep tone  
xx58SU - 5 string brighter

8S - 4 string deep tone  
8SU - 4 string brighter

57J - 5 string split coil - deeper tone  
57K - 5 string split coil - brighter tone

For Precision Basses

For American Std.  
Jazz Basses

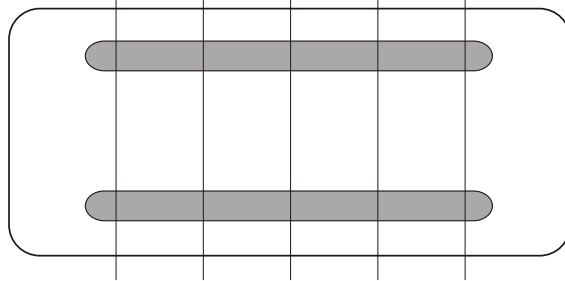

## For 5 String Music Man Basses

72MV5E - 72mm 5 string triple coil - deep tone

72MV5C - 72mm 5 string dual-coil - deep tone

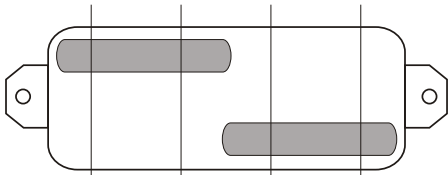

72MV5EK - 72mm 5 string triple coil - bright tone

72MV5CX - 72mm 5 string dual coil - bright tone

## For Rickenbacker 4001 Basses

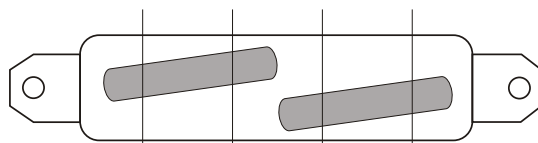

6RT - split coil - bass pickup

6RC - dual coil - treble pickup

Mute  
Compartment  
add-on

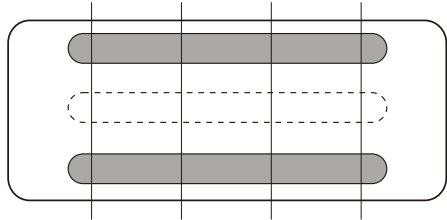

6JH - split coil - deep tone

SOAPBARS

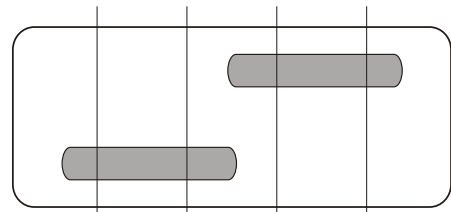

bartolini

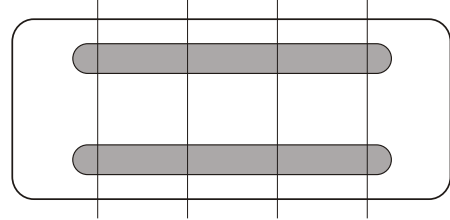

BB4E - triple coil - deeper  
BB4EX - triple coil - brighter

## BB

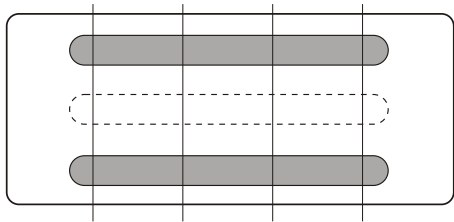

BB4M - split coil - deeper  
BB4T - split coil - brighter

BB4C - dual coil - deeper  
BB4CX - dual coil - brighter

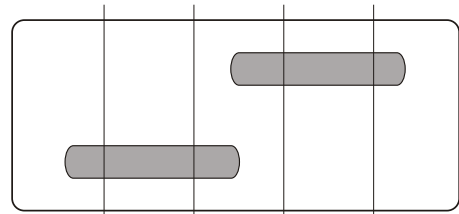

bartolini

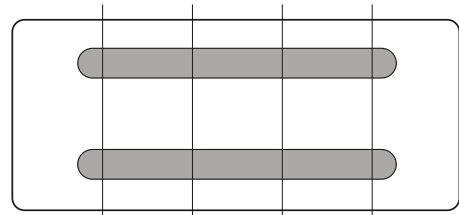

M34E - triple coil - deeper  
M34EX - triple coil - brighter

## M3

same shape  
as EMG35

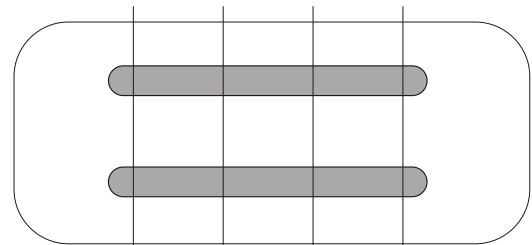

M34M - split coil - deeper  
M34T - split coil - brighter

M34C - dual coil - deeper  
M34CX - dual coil - brighter

bartolini

W4C - dual coil - deeper  
W4CX - dual coil - brighter

## W4

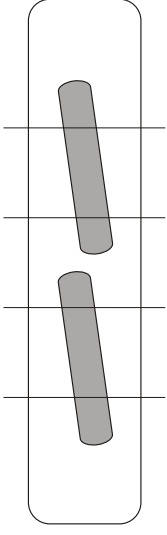

W4E - triple coil - deeper  
W4EX - triple coil - brighter

# X4

X44J - split coil - deeper tone

X44K - split coil - brighter tone

## 5 string soapbars

xxBC5M - 5 st. split coil - deeper

xxBC5T - 5 st. split coil - brighter

# BC

xxBC pickups will work with string widths from 64mm to 80mm if the fingerboard radius is greater than 14 inches (360mm)

72BC5C - 72mm 5 st. dual coil - deeper  
72BC5CX - 72mm 5 st. dual coil - brighter

xxBC5C - 5 st. quad coil splittable - deeper  
xxBC5CX - 5 st. quad coil splittable - brighter

xxBD5M - 5 st. split coil - deeper

xxBD5T - 5 st. split coil - brighter

# BD

xxBD quad coil splittable pickups will work with string widths from 64mm to 80mm if the fingerboard radius is greater than 14 inches

72BD5C - 72mm 5 st. dual coil - deeper  
72BD5CX - 72mm 5 st. dual coil - brighter

xxBD5C - 5 st. quad coil splittable - deeper  
xxBD5CX - 5 st. quad coil splittable - brighter

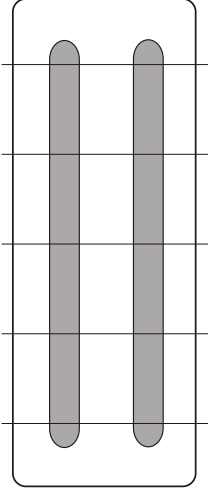

# M4

same shape as EMG40

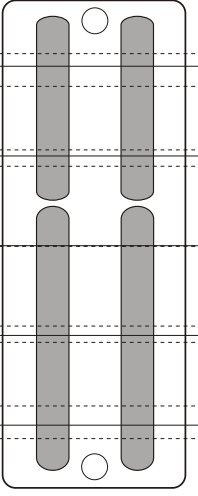

xxM4 pickups will work with string widths from 64mm to 80mm if the fingerboard radius is greater than 14 inches (360mm)

xxM45M - 5 st. split coil - deeper  
xxM45T - 5 st. split coil - brighter

72M45C - 72mm 5 st. dual coil - deeper  
72M45CX - 72mm 5 st. dual coil - brighter

xxM45C - 5 st. quad coil splittable - deeper  
xxM45CX - 5 st. quad coil splittable - brighter

xxM55M - 5 st. split coil - deeper  
xxM55T - 5 st. split coil - brighter

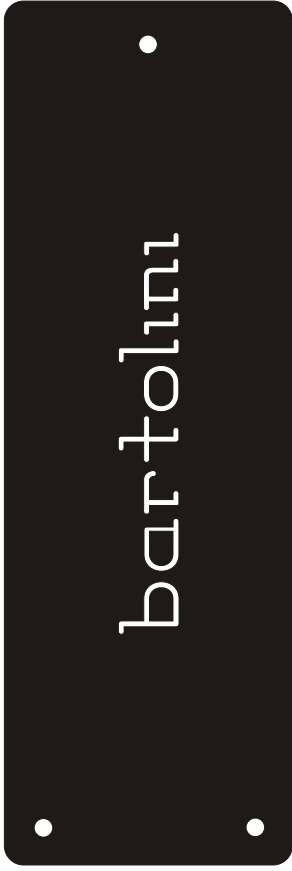

xxM55C - 5 st. quad coil splittable - deeper  
xxM55CX - 5 st. quad coil splittable - brighter

# M5

same shape as EMG45

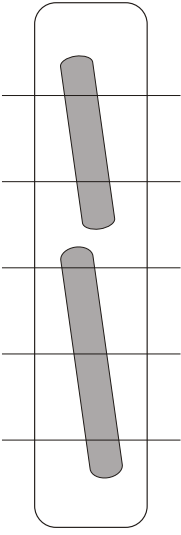

xxM5 pickups will work with string widths from 64mm to 80mm if the fingerboard radius is greater than 14 inches (360mm)

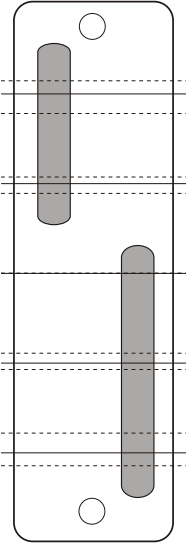

72M55C - 72mm 5 st. dual coil - deeper  
72M55CX - 72mm 5 st. dual coil - brighter

# X4

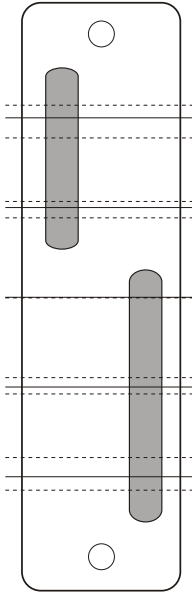

X45J - split coil - deeper tone  
X45K - split coil - brighter tone  
64mm to 75mm string width

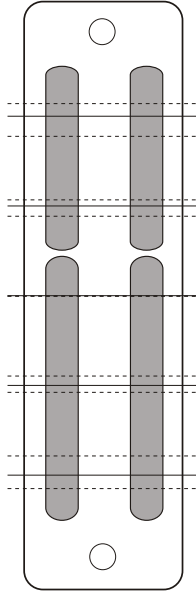

xxP25M - 5 st. split coil - deeper  
xxP25T - 5 st. split coil - brighter

# P2

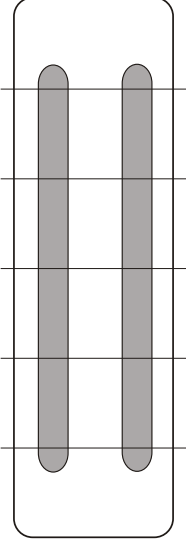

xxP2 pickups will work with string widths from 68mm to 80mm if the fingerboard radius is greater than 14 inches (360mm)

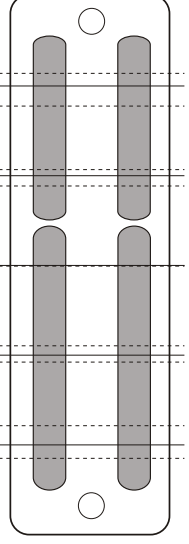

xxP45M - 5 st. split coil - deeper  
xxP45T - 5 st. split coil - brighter

xxP45C - 5 st. quad coil splittable - deeper  
xxP45CX - 5 st. quad coil splittable - brighter

72P25C - 72mm 5 st. dual coil - deeper  
72P25CX - 72mm 5 st. dual coil - brighter

xxP25C - 5 st. quad coil splittable - deeper  
xxP25CX - 5 st. quad coil splittable - brighter

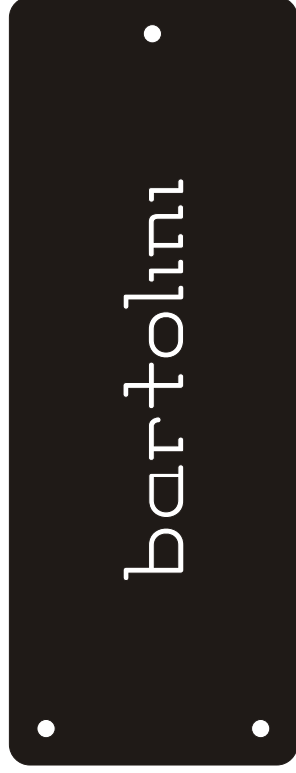

# P4

xxP4 pickups will work with string widths from 68mm to 80mm if the fingerboard radius is greater than 14 inches (360mm)

72P45C - 72mm 5 st. dual coil - deeper  
72P45CX - 72mm 5 st. dual coil - brighter

# 6 string soapbars

xxM46 pickups will work with string widths from 72mm

## M4

same shape as EMG40

to 88mm if the fingerboard radius is greater than 14 inches (360 mm)

bartolini

## M5

same shape as EMG45

xxM5 pickups will work with string widths from 72mm to 95mm if the fingerboard radius is greater than 14 inches (360mm)

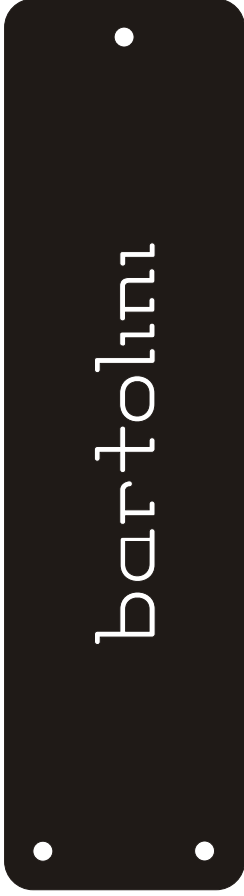

bartolini

## P2

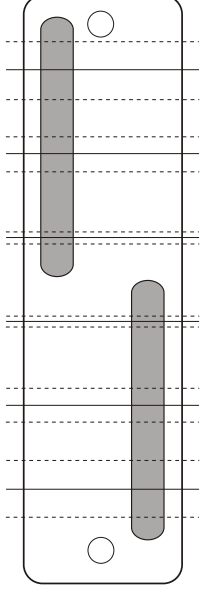

xxP26 pickups will work with string widths from 74mm to 90mm if the fingerboard radius is greater than 14 inches (360 mm)

# P4

xxP4 pickups will work with string widths from 74mm to 90mm if the fingerboard radius is greater than 14 inches (360mm)

xxP46M - 6 st. split coil - deeper  
xxP46T - 6 st. split coil - brighter

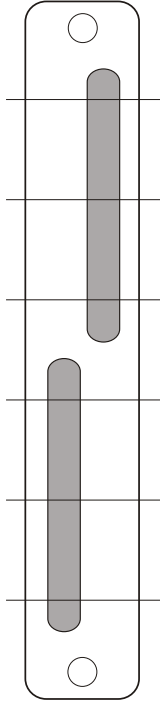

xxP46C - 6 st. quad coil splittable - deeper  
xxP46CX - 6 st. quad coil splittable - brighter

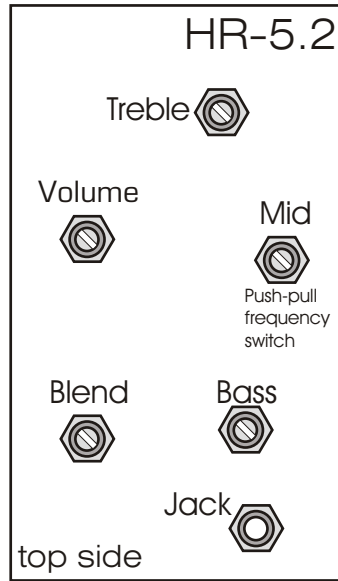

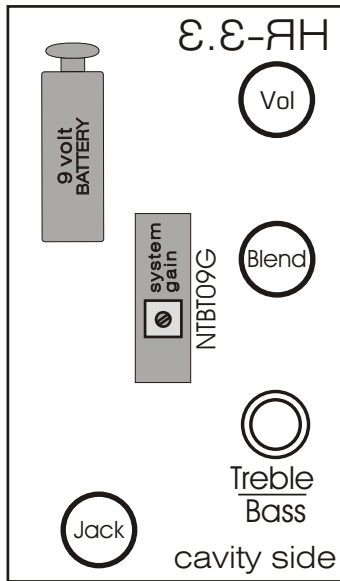

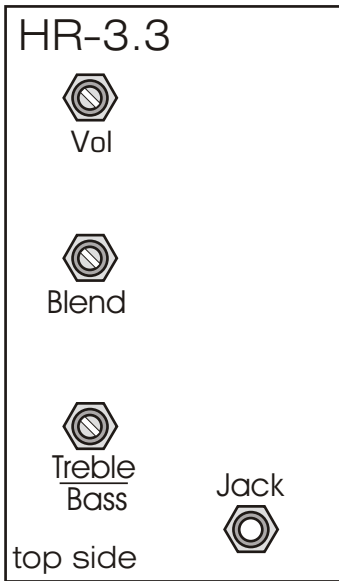

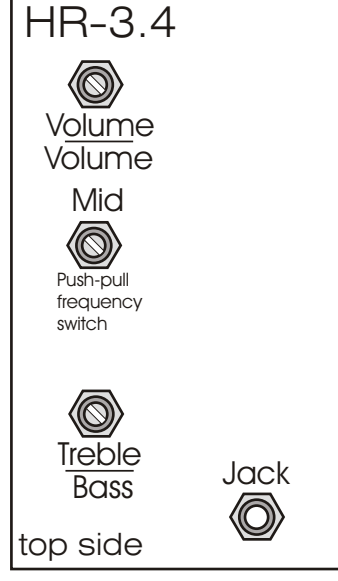

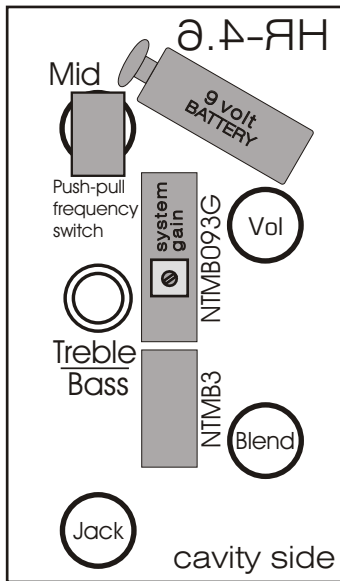

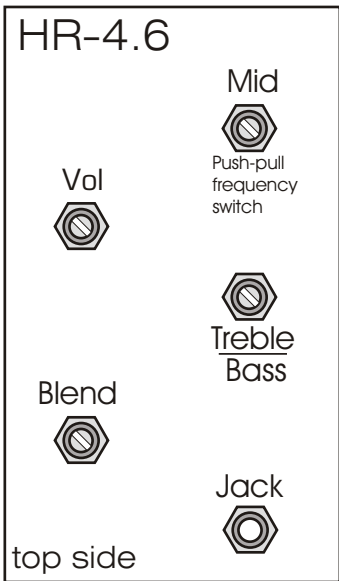

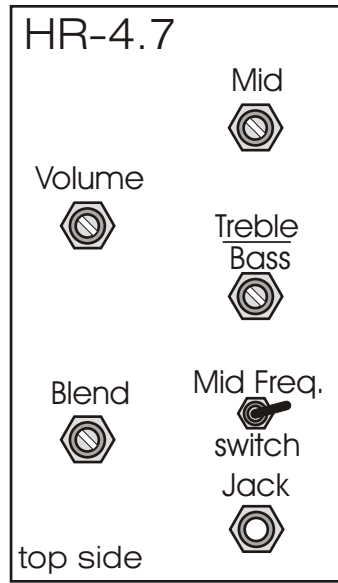

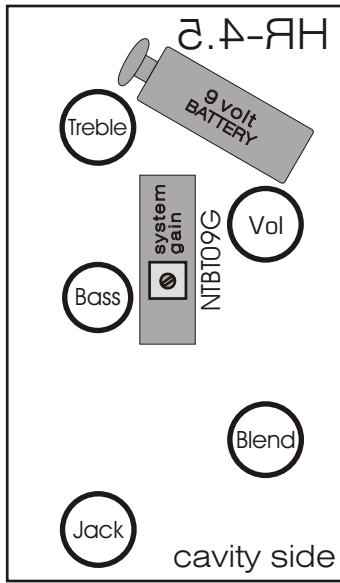

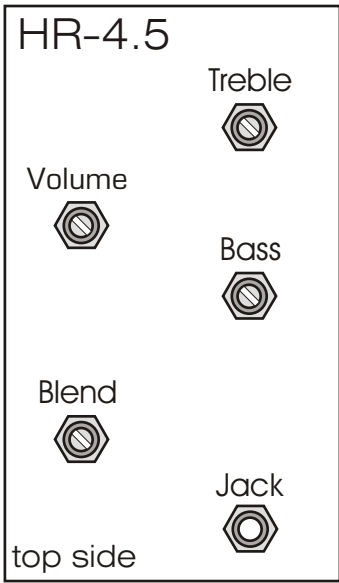

# G6

G6 shape pickups are available in string widths of 96mm and 100mm

96G6M - 6 st. split coil - deeper  
96G6T - 6 st. split coil - brighter  
100G6M - 6 st. split coil - deeper  
100G6T - 6 st. split coil - brighter
